### **DETAILED ACTION**

1. In view of the September 10, 2006 Appeal Brief, PROSECUTION IS HEREBY REOPENED. The new rejection is set forth below.

To avoid abandonment of the application, appellant must exercise one of the following two options:

(1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,

(2) initiate a new appeal by filing a notice of appeal under 37 CFR 41.31 followed by an appeal brief under 37 CFR 41.37. The previously paid notice of appeal fee and appeal brief fee can be applied to the new appeal. If, however, the appeal fees set forth in 37 CFR 41.20 have been increased since they were previously paid, then appellant must pay the difference between the increased fees and the amount previously paid. A Supervisory Patent Examiner (SPE) has approved of reopening prosecution by signing at the end of this Office Action.

### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

4. Claims 5, 7, 11-14, 19 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ginter, US 7,143,290.

Ginter discloses an automatically generated E-commerce transaction, e.g. Figs. 7, 8, 16, 96, 103, 110, 113, 113B, 114A, 121, secure containers, e.g. 302, an electronic document identifier, e.g. 4542, a transaction identifier, e.g. 4532, storage means, e.g. 600A, 4054, 4109, 4130, transmitting means, e.g. 4548, a database, e.g. 610, and a server, e.g. 4150, that provides for no modifications to the document. Ginter does not explicitly the document dynamically generated. However, Ginter does disclose a dynamic interface, e.g. PPE 650. Official Notice is taken that dynamically generated documents have been common knowledge in the database transaction art. To have provided such for Ginter would have been obvious to one of ordinary skill in the art. The motivation would have been to obtain a more secure document.

Applicant's REMARKS from the Appeal Brief are noted, but are moot in light of the new grounds of rejection. It is noted that Applicant's REMARKS did not address each independent claim, e.g. claim 5 does not claim a transaction ID.
